RURAL TRANSPORT **connects** RURAL IRELAND

[“Hands off our rural bus”](#)

Dear Passenger,

Community Transport is under threat – The recent An Bord Snip report recommended the Axing of the Rural Transport Programme which funds rural transport in Kerry through Kerry Community Transport Ltd.

This is a very alarming recommendation and we need to fight to ensure it doesn't become a reality. We are encouraging all passengers, their families and members of rural communities to write to your local elected representative, TD's and /or Minister for Transport to express what this service means to you and your concerns or fears about the this potential loss.

Over the coming weeks there will be lobbying campaign to fight this recommendation and we see you the passenger of the service as the most important aspect of this fight.

A contact list of Kerry TD's for your information is on the back.

If you have any comments, recommendations or suggestions please do not hesitate to contact us.

- *Kerry Community Transport has over 120 bus services weekly in Kerry*
- *In 2009 we will carry over 130,000 passenger trips*
- *In July 2009 we carry our 500,000 passenger since 2003.*

*Yours Sincerely,
Carmel Walsh, Manager*
